

We need courage, faith and hope that we, as Canadian content creators, can be just as great in the global arena. We need to PROMOTE and SUPPORT each other. Could there be a one stop place, where I, as an emerging tv producer, can get the word out about an upcoming tv comedy series - Ghetto Moms. We've just launched a social media strategy, but it's been like diving off the high diving board...lol..Looking for MENTORSHIP or two would be nice. :) A newbie to this ever changing landscape, I also would like to thank the support I've received from individuals and organizations I have met and interacted with over recent years - AMPIA, CMF, CSIF, etc. LET'S LEAD THE WAY!!!!
